

# ProVision highlights:

- Direct filing of claims to Medicare, Blue Cross and Medicaid,
- Claim filing for commercial participating carriers via WebMD,
- Electronic remittance posting for Medicare, BC and some commercial carriers,
- Interfaces with most major lab companies - patient data is sent and lab results retrieved and stored on patient's account,
- HL7 interfaces available for connectivity to a variety of third parties including hospitals and electronic medical/health record systems, and financial systems.
- Hardware requirements are open and simple, usually requiring only PC workstations and Pentium-based file servers and basic networking equipment.
- Special versions are available for obstetrics/gynecology, nephrology/dialysis, anesthesia, surgery centers, MSOs, billing services and others.

In addition to **ProVision**, C&S Research offers **ProNote** clinical workflow manager and **MedicWare** point-of-care electronic medical record system.

Context-sensitive help screens

Tabs organize additional patient information.

Print patient verification sheet.

Track referrals - in or out

View insurance cards, drivers license or photos

Multiple practices or corporations are supported. Patients or transactions can be shared between practices. Reporting can span all entities.

Up to 7 active policies may be carried per patient; unlimited expired coverages managed.

Patients may be their own guarantor. Multiple patients may also link to one guarantor for family billing.

Extensive and flexible security by user

## What our clients will tell you about **C&S Research...**

"The whole upgrade in general from UNIX to the ProVision Windows-based system was seamless, didn't even know it was happening."  
Andrew Prokuriat, Administrator, Valley Sports and Arthritis Surgeons

"ProVision scheduling is much easier to use and more user-friendly. There were no surprises during the install.  
I was confident C&S would do a good job and we love our trainer Alice!"  
Diane Martin, Office Manager, Upper Bucks Family Practice

"We chose Provision, first, for its flexibility. Second, we were impressed by the audit trails, the ease of monitoring the audit trail, and the security levels provided by the software. Third, we especially appreciated the OB/GYN components of the software.  
I have been involved with several computer implementations, and this has been the smoothest."  
Susan Wolf, Administrator, Wendover OB/GYN and Infertility

We love our ProVision software! It is comprehensive but very efficient and loaded with features. The support is wonderful as well - they're always pleasant and call you back promptly if you have to leave a message."  
Fia Roe, The Center for Reproductive Medicine, Mobile

### **ProVision is:**

a **comprehensive** medical practice management software program,

designed with **powerful** functions and features to **streamline** all office activities:

- scheduling,
- patient information,
- insurance verification and billing,
- EDI (Electronic Data Interchange) and office accounting.
